To Our Customer:

We are pleased to provide you with this listing, which you may find useful as a fast and convenient reference to the broadest array of industrial supplies, equipment and machinery in the Southeast.

It is our goal to provide you with quality products and materials at competitive prices, accurately and on time.

To that end, we offer the following services and values:

- Full capabilities and track record in handling systems contracts, blanket orders and sole-source purchasing.
- Permanent, on-going Quality Assurance Program to detect and eliminate error conditions, improve efficiency and support customer quality improvement efforts.
- State-of-the-art technology in handling modern industrial purchasing including on-line remote entry, electronic data interchange (EDI), facsimile transmission, paperless purchasing systems and more.
- Full-time Customer Service Department (apart from Inside Sales) to take expediting, tracing and delinquency worries off our customers.
- Substantial engineering, including machine tools and accessories, and band saw blade welding.
- Sourcing experience and capability to find and get the hard-to-locate items that are vital but infrequently purchased.
- Inventory reduction programs to permit customers to reduce their investment and expense in carrying in-plant or storeroom inventories.
- Value engineering and analysis to assist customers in their cost reduction efforts in eliminating, standardizing, substituting or consolidating purchased products or paperwork.

But most of all, we offer a team of quality people who are motivated to get the job done for you—quickly, efficiently, and correctly.

We hope that you find this helpful in your purchasing and sourcing of industrial supplies, equipment and machinery.
